Cursos: 2° A – B

Guía N° 3 Inglés

Fecha: _____

Alumno (a) _____ Score: _____

Objetivo: Reforzar conocimientos y vocabulario relacionado con los medios tecnológicos de comunicación.

Instrucciones:

En ítem 1 lea atentamente el texto “How the Web Works”, (con la ayuda de un diccionario manual) y responda las preguntas relacionadas en las secciones 1, 2 y 3.
Finalmente realice una lista de palabras relacionadas con la tecnología.

Profesor Luis Araos Acosta. inglés

+56971352506 luisaraos.acosta@gmail.com

Lee atentamente el siguiente texto:

The world wide web is a collection of electronic documents that are linked together like a spider web.
These documents are store on computers called servers located around the world.

The web has evolved into a global electronic publishing medium and increasingly, a medium for conducting electronic commerce.

The Web consists of:

- your personal computer
- web browser to access the Web
- A connection to an Internet service
- Servers to host the data
- Routers and switches to direct the flow of data

How the Web Works.

Web pages are stored on web servers located around the globe.

Entering the (Uniform Resource Locator) URL of a web page in your web browser or clicking a link sends a request to the server which hosts the page.

The server sends the web page to your computer and your web browser displays it on your screen.

A web page is an electronic document written in a computer language called HTML (Hypertext Markup Language)

Web pages can contain text, graphics, video, animation, and sound, as well as interactive features, such as data entry forms.

Each page has a unique address known as a URL (Uniform Resource Locator), which identifies its location on server.

Web pages usually contain hyperlinks to other web pages. Hyperlinks are text and images that reference the URLs of other web pages

Websites

A website is one or more web pages that relate to a common theme, such as a person, business, organization, or a subject, such as sports.

The first page is called the home page, which acts like an index, indicating the content on the site.

From the home page, you can click hyperlinks to access other web pages.

Exercise.

1. Lee y responda en inglés.

a. What is the World Wide Web?

b. Where are documents stored?

c. How many components does the Web have?

d. What is a website?

e. What's the name of the first page in a website?

2. Lee y responde en castellano

a. Nombre los componentes de la WWW.

b. Explique cómo funciona la web.

c. ¿Qué es una URL?

3. Pensemos en nuestro lenguaje.

a. ¿Cómo le llamamos nosotros a la www??

b. ¿Tenemos un nombre para web site?

c. ¿Porqué le decimos PC al computador? ¿Cómo debiéramos decirle?

d. Haga una lista de palabras del inglés que usamos en nuestro país. Comience por el área tecnológica. Hay muchas, anote al menos 15. Ejemplo; mouse

1_____	9_____
2_____	10_____
3_____	11_____
4_____	12_____
5_____	13_____
6_____	14_____
7_____	15_____
8_____
